# Zoom – Sharing the Document Camera from Lectern PC

1) Open Zoom and check whether the primary camera is selected as the webcam in the video settings.

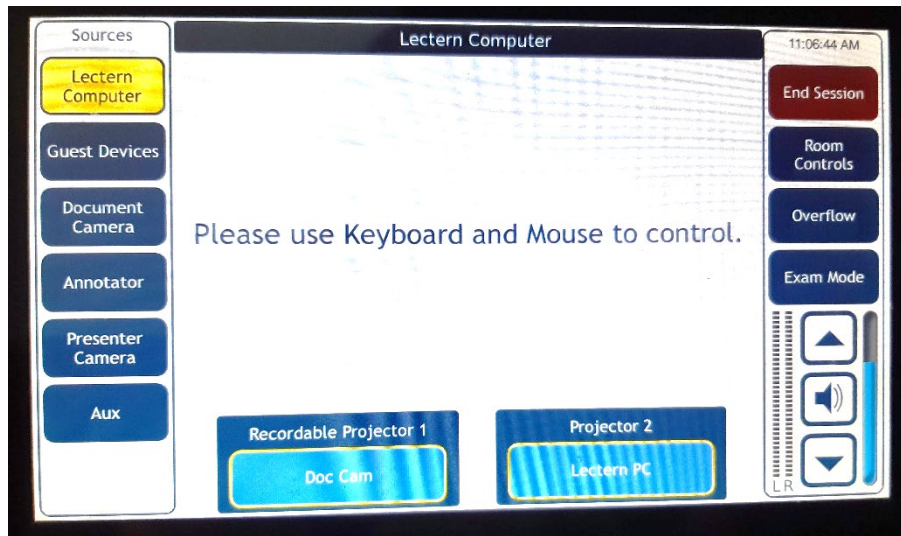

Ensure the **Webcam** is selected as the **primary Camera** so that the Logitech Screen Share (Document Camera) can be selected as a 2nd Camera via Advanced Sharing.

Note: you can keep the webcam disabled

2) Select **Share Screen** or **New Share** option on Zoom

3) Choose **Advanced** sharing option, then select **Content from 2nd Camera** and click **Share**

4) Project 'Document Camera' onto the 'recordable display' using the Touchpanel.

5) Document camera shared via Zoom
